2023 National Model Aviation Day

We're getting closer!

As you all know by now, a few of us are working behind the scenes to get ready for our National Model Aviation Day event on August 5th. We are really hoping to make it a success and live up to the intend of NMAD, and that is to promote the hobby to the general public.

Flyers and posters are being distributed and we have the support of Old City BBQ and Hobby Town. The event is listed on several event calendars in the area. It's on Facebook and invitations have been made to other VA clubs in the area.

That's all well and good but we also want to put our best foot forward when it comes to hosting our visitors. It doesn't take a lot of work per se but we don't want to leave things to chance when it comes to getting done the things that need to get done.

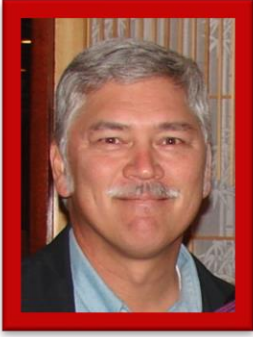

Some club members and already stepped up and volunteered to help out. Initial response has been great but as we get closer, we want to be sure we don't have any gaps. For this reason, I have created an activity list that is shown below. Please take a look at it and let me or Fred Hill know where you can help out. Many of these items will not take a lot of your time which of course then leaves you with plenty of time to be flying during the day!

Happy Landings.
